Addendum Reformatting the Equipment Policy.....12

Addendum Reformatting the Supplies Policy..... 16

# Addendum to Add the Appeal Forms to the Disagreements & Reimbursement Denials Policy

The purpose of this addendum is to add the appeal forms for single or joint petitioners to the policy for ease of access for families.

## **DISAGREEMENTS & REIMBURSEMENT DENIALS**

If a disagreement arises on a request for reimbursement, we invite you to discuss the issue with your Case Manager. They will welcome the opportunity to work with you in hopes of resolving the disagreement. In some instances, NICA may ask for a more clearly written letter of medical necessity or additional documentation.

If a disagreement arises and your Case Manager cannot resolve it, upon written request, the Executive Director may review the request and attempt to resolve the disagreement with the parents or legal guardians.

If the Executive Director cannot resolve the disagreement and a reimbursement request is denied, the parent(s) or legal guardian(s) have the right to file a petition with the Division of Administrative Hearings to dispute the amount of actual expenses or the reimbursement denial. When filing a petition, families should utilize either the [Single Petitioner Form](#) (when only one parent is filing the appeal) or the [Joint Petitioner Form](#) (when both parents are filing the appeal). Either parent can file a petition using the Single Petitioner Form, however, if both parents want to be on the petition they should use the Joint Petitioner Form.

The address to submit a letter or petition is:

### **Division of Administrative Hearings**

2001 Drayton Dr.  
Tallahassee, FL 32311  
Phone: (850) 488-9675  
Fax: (850) 921-6847

Parents or legal guardians may also contact the Insurance Consumer Advocate at the Florida Department of Financial Services for concerns related to benefits.

The contact information for the Insurance Consumer Advocate is:

### **Office of the Consumer Advocate Florida Department of Financial Services**

Office: 850.413.5923  
Fax: 850.487.0453

## Addendum – Local Travel

The purpose of this addendum is to add the GSA mileage rates effective 1/1/2026.

### **Benefit: Local Travel**

#### **Retroactive Benefits:**

NICA will honor reimbursement requests submitted within four years (in accordance with Section 95.11(3)(f), Florida Statutes) of the date the expense was incurred if the request is accompanied by appropriate documentation. If the expense was incurred before the participant's acceptance into the NICA program, this time limit does not apply as long as requests for reimbursement are submitted within four years of acceptance into the program.

#### **Description:**

Local travel refers to travel that is less than 50 miles one-way and that does not require an overnight stay. See Overnight Travel policy.

NICA will reimburse travel expenses (described below) that are incurred when a NICA participant travels to and from medically necessary appointments such as physician visits and therapy.

#### Mileage, Parking Fees, and Tolls:

Mileage for medically necessary appointments is reimbursed as follows:

- When using a NICA vehicle:
  - o Mileage for medical appointments or pre-approved travel will be reimbursed at twice the GSA rate for a government-furnished vehicle.
  - o Mileage rates:
    - Beginning 1/1/2026: \$0.41/mile
    - Beginning 1/1/2025: \$0.42/mile
    - Beginning 1/1/2024: \$0.42/mile
    - Beginning 1/1/2023: \$0.44/mile
    - Beginning 7/1/2022: \$0.44/mile
    - Beginning 4/1/2022: \$0.36/mile
    - Before 4/1/2022: \$0.23/mile
- When using a personal vehicle:
  - o Mileage for medical appointments or pre-approved travel will be reimbursed at the GSA rate for a privately owned vehicle.
  - o Mileage rates:
    - Beginning 1/1/2026: \$0.725/mile
    - Beginning 1/1/2025: \$0.70/mile
    - Beginning 1/1/2024: \$0.67/mile
    - Beginning 1/1/2023: \$0.655/mile
    - Beginning 7/1/2022: \$0.625/mile
    - Beginning 4/1/2022: \$0.585/mile
    - Before 4/1/2022: \$0.445/mile

Actual parking fees and tolls will also be reimbursed for medically necessary appointments.

In addition to medically necessary appointments, NICA will reimburse mileage only (no parking fees or tolls) for the following purposes 4

- Trips to the pharmacy for prescriptions related to the participant's birth injury (see the Prescription Drugs & Pharmacy Mileage section for documentation requirements),
- Non-routine supply/equipment-related travel. For example, if a piece of equipment is broken and needs to be repaired, mileage may be reimbursed for the travel to and from the repair location.
- Effective 4/1/2024, NICA will reimburse mileage to PPEC and to special needs school programs where the participant receives medically necessary services such as therapy (please reach out to your case manager to find out if your participant's school qualifies for mileage reimbursement). Attendance records are required for reimbursement.

#### Meals & Incidentals:

When a participant's one-way travel for a medically necessary appointment is either more than 30 miles or in excess of 45 minutes from home, NICA will provide a stipend for meals and incidentals at the GSA day-of-travel rate (75% of the GSA per diem) for up to two caregivers. NICA will also provide the same stipend for the NICA participant if the participant can consume food orally, does not have a digestive system dysfunction that impedes the ability to consume food, and is not receiving reimbursement for pre-packaged specialized nutritional products or the monthly Fresh Food Stipend.

#### Travel Reimbursement when a Participant is Hospitalized:

Effective 9/1/23, when a participant is hospitalized, NICA will reimburse the following:

- Mileage at the rates noted above for one round trip per day on days that a parent or guardian does not stay overnight at the hospital.
- Meals & Incidentals stipend for up to two caregivers as follows:
  - On days when a caregiver travels to and from the hospital, the stipend will be provided at the GSA day-of-travel rate (75% per diem)
  - On days when a caregiver does not leave the hospital, the stipend will be provided at the full GSA per diem rate.

Please contact your Nursing Case Manager if you have questions about reimbursement of other travel-related expenses.

#### **Medical Necessity Documentation:**

NICA must have documentation of the reimbursable appointment or hospitalization, such as appointment notes or hospital notes/discharge summary.

#### **Prior Authorization Requirements:**

Prior authorization is not required for local travel reimbursement.

#### **Documentation Requirements for Reimbursement:**

##### For Mileage and Meals & Incidentals:

- Documentation of medical necessity discussed above

##### For Parking and Tolls:

- Documentation of medical necessity discussed above
- Receipt or paid invoice.
  - For tolls, a Sunpass (or similar) statement can be provided as proof of payment

**Additional Information:**

Mileage reimbursement will be calculated by the participant's Nurse Case Manager using the addresses for the locations provided by the parent or legal guardian. If the parent or legal guardian wants a specific map route used for the reimbursement, they can reach out to their case manager to provide these details.

In some instances, a non-parent/non-guardian caregiver may be reimbursed for mileage for taking the participant to medically necessary appointments.

**Exclusions or Limitations:**

If a family has a NICA vehicle and chooses to use their personal vehicle to transport the participant, to medically necessary appointments, mileage will be reimbursed at the GSA rate for government-furnished vehicles (i.e. at the NICA vehicle rate, not at the personal vehicle rate).

## Addendum Updating Previously Authorized Intensives Table

The purpose of this addendum is to add aqua therapy intensives to the table of examples of previously authorized intensives.

### **Benefit: Intensive Therapy**

*(Effective Date January 1, 2024)*

#### **Retroactive Benefits:**

There are no retroactive benefits related to this policy. Benefits are available only after the effective date.

#### **Description:**

Intensive therapy typically involves 1 to 5 weeks of one or more therapies (e.g., physical, occupational, speech therapy), provided for several hours each day, five days a week, by a licensed therapist. In some cases, summer camps that also include therapy provided by licensed therapists can be considered intensive therapy sessions.

NICA will authorize one intensive session per quarter for each category of therapy. A quarter is defined as the 13-week period beginning with the date of the first attended intensive therapy. For example, a participant may attend a physical therapy intensive and a feeding intensive within the same 13-week period. However, for intensives of the same category that are 4 or 5 weeks in length, there must also be a 9-week gap between the end date of one intensive and the start of the next. This is to ensure that appropriate adherence to maintenance therapy is achieved.

Here are some examples:

- A participant attends a 5-week physical therapy intensive from February 10, 2025, to March 14, 2025. The next time that participant would be eligible to attend another PT intensive would be May 16, 2025, which is 9 weeks from March 14th.
- A participant attends a 2-week physical therapy intensive from February 10, 2025, to February 21, 2025. The next time that participant would be eligible to attend another PT intensive would be at the beginning of the next 13-week period, which would be May 12, 2025, because more than 9 weeks had passed since the end of the initial intensive.
- In the above examples, a participant could also attend Brain Plasticity or Feeding Therapy or some other intensive that is not a physical therapy intensive during the same 13 -week period (February 10, 2025, through May 12, 2025).

Maintenance therapy must follow best practices for a given therapy modality and be in accordance with the intensive provider's recommendations. When NICA authorizes an intensive therapy session, they will request that the provider document those recommendations when they submit their billing and therapy notes after each intensive.

Insurance denials may be requested for some intensives.

Examples of intensives previously authorized:

Category	Specialty (if applicable)*	Providers Used (more may be added in the future)
Physical Therapy	Physical Therapy Intensive	Ability Plus Therapy, Believe Pediatric Physical Therapy, First Step Therapy, John Hopkins Medicine, Kenny Rogers Children's Center, Kids PT By the Sea / Sarasota Pediatric Physical Therapy, NAPA Center, Neurowerks, Pediatric Therapy Associates, Starlight Intensive, Therapies4Kids
Physical Therapy	Therasuit	Ability Plus Therapy, Believe Pediatric Physical Therapy, John Hopkins Medicine, Kenny Rogers Children's Center, Lampert's Home Therapy, Inc., NAPA Center, Neurowerks, Therapies4Kids
Physical Therapy	Dynamic Movement Intervention	Family First Therapy, Kids PT By the Sea / Sarasota Pediatric Physical Therapy, Starlight Intensive
Physical Therapy	Universal Exercise Unit (Cage)	Believe Pediatric Physical Therapy, John Hopkins Medicine
Physical Therapy	Constraint-Induced Movement Therapy	Intensive Therapeutics
Physical Therapy	Aqua Therapy	Jax Kids Aquatics
Occupational Therapy		Ability Plus Therapy, John Hopkins Medicine, Intensive Therapeutics, NAPA Center
Speech Therapy		Ability Plus Therapy, Brave Bunch Summer Camp, Kenny Rogers Children's Center, Logos Therapy Group, NAPA Center
Feeding Therapy		NAPA Center, NJ Pediatric Feeding Associates
Brain Plasticity		Brainvive, Neurotru PLLC, Plasticity Center of Orlando
Vision		The Children's Home of Pittsburgh

\* Specialty Intensives are all considered Physical Therapy intensives so only one type of Specialty Intensive can be attended every 3 months

### Medically Necessary Documentation:

- **First Intensive Session:** A letter of medical necessity from the primary care physician, physiatrist, or neurologist is required.
  - For all physical therapy, occupational therapy, speech therapy, and feeding therapy, a letter of medical necessity is also required from the participant's therapist. In many cases, the therapist will prepare the initial letter of medical necessity, and the physician will indicate their concurrence with the recommendation.
  - Brain Plasticity intensives require a letter of medical necessity from a neurologist.
  - Separate letters of medical necessity are required for each category and specialty of therapy.
- **Subsequent Intensive Sessions:** No letter of medical necessity is required, but documentation must show consistent attendance of any recommended maintenance therapy since the last intensive. Maintenance therapy must conform to the current policy (e.g. be provided by a licensed therapist following a plan of care approved by a physician, etc.) except as follows:
  - For Brain Plasticity, if recommended maintenance therapy is for at-home exercises only (as opposed to therapy), the parent will be asked to confirm that the prescribed maintenance exercises were completed for this type of intensive.

### Prior Authorization Requirement:

Prior authorization is required for all intensives. Note that if a parent elects to *schedule* an intensive prior to authorization, reimbursement cannot be guaranteed until the intensive is authorized.

### Documentation Requirements for Reimbursement:

- Therapy notes
- Invoice
- In addition to above, if reimbursement is to be made to parent, proof of payment to provider (e.g., cancelled check, bank statement, credit card statement or sales slip, receipt from vendor, etc.)

### Additional Information:

There is no additional information for this policy.

**Exclusions or Limitations:**

Conferences that are not exclusively providing direct care to the participant are excluded.

## Addendum Clarifying Travel Coverage when Hospitalized Away from Home

The purpose of this addendum is to clarify that when a participant is hospitalized when traveling away from home (i.e. a family vacation) reimbursement for travel expenses will follow the Overnight Travel policy.

### **Benefit: Overnight Travel**

#### **Retroactive Benefits:**

NICA will honor reimbursement requests submitted within four years (in accordance with Section 95.11(3)(f), Florida Statutes) of the date the expense was incurred if the request is accompanied by appropriate documentation. If the expense was incurred before the participant's acceptance into the NICA program, this time limit does not apply as long as requests for reimbursement are submitted within four years of acceptance into the program.

#### **Description:**

When the participant and up to two caregivers travel at least 50 miles from home\* and must stay overnight for a medically necessary appointment or hospitalization, NICA will reimburse for the following:

- Mileage at the rates noted in the Local Travel policy if travel is by personal or NICA vehicle, or actual Airfare (see below for more details)
- Lodging (see below for more details)
- Parking and Tolls
- Rental Car (see below for more details)
- Meals & Incidentals (see below for more details)

\*If a family is staying away from their primary residence (i.e. on vacation), for purposes of applying this policy, "home" is considered where the family is temporarily residing, such as a hotel, Airbnb, or a relative's home.

#### Airfare:

Beginning January 1, 2022, if the participant travels by commercial air, NICA will reimburse the actual cost of coach fares for the participant and up to two caregivers. Luggage fees are also reimbursable. Reimbursement is available after the medically necessary trip is completed. Prior to January 1, 2022, reimbursement was available for the participant and only 1 caregiver.

#### Lodging:

Actual expenses incurred for lodging are reimbursed at a rate of up to 1.3 times GSA lodging rate for the destination city. The GSA rate maximum reimburses for all travelers (i.e. the amount that is reimbursed remains the same regardless of the number of travelers).

When calculating maximum reimbursement, all fees that are not taxes are considered part of the lodging expense. If the actual expense exceeds 1.3 times the GSA rate, reimbursement will be the maximum GSA amount plus the proportional amount of taxes. When calculating the maximum reimbursement, the cost of the entire stay is totaled and compared to what the total reimbursement would be at the GSA rate for the same number of nights. In other words, if some nights exceed the GSA rate and some nights are less

than the GSA rate, but the total is still equal to or less than the GSA total, full reimbursement will be made.

Lodging will only be reimbursed up to one day before and one day after the medically necessary appointment except when driving will take multiple days. In those instances, lodging can be reimbursed for actual travel days assuming an average travel time of 8 hours per day.

NICA staff are available to assist with lodging reservations at the parent's request.

#### Parking and Tolls:

Actual costs of parking are reimbursed with a receipt. For parking at hotels, the cost of self-parking is reimbursed. Valet parking is reimbursed only if self-parking is not available.

Tolls are reimbursed with proof of payment. A Sunpass (or similar) statement can be provided as proof of payment.

#### Rental Car:

A rental car may be needed if the participant flies to an appointment or if the participant does not have a NICA vehicle and would prefer to travel by rental car. Rental car reservations should be made by NICA staff so that state rates can be accessed, and so that NICA can be directly billed. Tolls incurred when driving the rental car will be billed directly to NICA. Mileage at the reliable transportation rate (see Local Travel policy) will be reimbursed to cover fuel costs. However, the fueling option offered by the rental car company is not reimbursable.

Rental car reservations will only be made up to one day before and one day after the medically necessary appointment except when driving will take multiple days. In those instances, reservations can be made to include additional travel days, assuming average travel time of 8 hours per day.

#### Meals & Incidentals:

NICA will provide a stipend for meals and incidentals at the GSA rate (either day-of-travel rate of 75% or full travel day rate of 100% of the GSA per diem) for up to two caregivers. NICA will also provide the same stipend for the NICA participant if the participant can consume food orally, does not have a digestive system dysfunction which impedes the ability to consume food, and is not receiving reimbursement for pre-packaged specialized nutritional products or the monthly Fresh Food Stipend.

Meals & Incidentals will only be reimbursed up to one day before and one day after the medically necessary appointment except when driving will take multiple days. In those instances, the per diem can be provided for actual travel days, assuming the average travel time of 8 hours per day.

Please contact your Nursing Case Manager if you have questions about reimbursement of other travel-related expenses.

#### **Medical Necessity Documentation:**

While requirements may differ based on the specific situation, in general, NICA must have documentation of the reimbursable appointment, such as a letter of medical necessity or appointment notes.

#### **Prior Authorization Requirements:**

Prior authorization is required for all medically necessary overnight travel requiring lodging, airfare, 11 and/or a rental car. Note that if a parent elects to incur charges prior to authorization, reimbursement cannot be guaranteed.

**Documentation Requirements for Reimbursement:**

For Mileage and Meals & Incidentals:

- Documentation of medical necessity as discussed above.

For Airfare, Lodging, Parking and Tolls:

- Documentation of medical necessity as discussed above.
- Receipt or paid invoice
  - o For tolls, a Sunpass (or similar) statement can be provided as proof of payment

**Additional Information:**

Mileage reimbursement will be calculated by the participant's Nurse Case Manager using the addresses for the locations provided by the parent or legal guardian. If the parent or legal guardian wants a specific map route used for the reimbursement, they can reach out to their case manager to provide these details.

**Exclusions or Limitations:**

Costs associated with travel outside of the country are generally not reimbursable. Please reach out to your case manager if you have a question regarding travel outside of the country.

Costs related to travel outside of the participant's state of residence may be reimbursable in some instances but require pre-authorization. Please reach out to your case manager if you have questions on out-of-state travel.

Travel insurance is not reimbursable.

Costs for valet parking are not reimbursable unless there are no self-parking options.

Costs for room service are not reimbursable.

Cancellation fees for lodging are not reimbursable unless unavoidable due to the participant's illness.

Fueling options offered by the rental car company are not reimbursable.

Tolls incurred that are not related to the medically necessary travel will not be reimbursed. Any non-reimbursable tolls incurred while using the rental car will be deducted from the travel reimbursement.

## Addendum Reformatting the Equipment Policy

The purpose of this addendum is to restructure the current Equipment policy to provide clearer guidance on medical necessity documentation, prior authorization requirements, reimbursement documentation, additional information, and applicable exclusions and limitations. This addendum also serves to update the Equipment List, which is now categorized by item type. The Firefly Upsee Harness and pool heater in lieu of a hot tub have also been added to the Equipment List. The effective date for the increase in limit for hot tubs and pool heaters was added. Clarification has been added that installation costs for hot tubs do apply towards the maximum limit that NICA will reimburse. It is also clarified in the text below that sales tax and the cost of obtaining a warranty are not applied towards the limit; however, if the item's base cost exceeds the limit, sales tax will be reimbursed on a proportional basis. Some items previously on the Equipment List were moved to the Supplies List - this includes AFOs, prescription glasses, Mega Rubber Rolls (therapy supplies), and urine collection systems. Permanent ramps were removed from the Equipment List because they are reimbursable under the Housing Assistance benefit. Several other items were removed for reimbursement from the Equipment List: infant changing tables (non-infant changing tables remain on the list), hitch for van (may be considered as part of Reliable Transportation benefit), and portable pool heaters (duplicative because pool heater remains on the list). All changes to the policy are effective 6/1/26.

### **Benefit: Equipment**

#### **Retroactive Benefits:**

NICA will honor reimbursement requests submitted within four years (in accordance with Section 95.11(3)(f), Florida Statutes) of the date the expense was incurred if the request is accompanied by appropriate documentation. If the expense was incurred before the participant's acceptance into the NICA program, this time limit does not apply as long as requests for reimbursement are submitted within four years of acceptance into the program.

#### **Description:**

NICA will purchase or reimburse actual expenses for medically necessary equipment for a participant's care. Because the equipment needed by NICA participants varies widely, a list of equipment that has been covered to date can be found in the Equipment List. If an item for which you are seeking reimbursement is not listed, please contact your case manager to check if the item may be reimbursable.

#### **Medical Necessity Documentation:**

To order or reimburse equipment that is less than \$3,000, NICA will require a written statement from the parent/guardian of the participant as to why the equipment is medically necessary (if not clearly related to the injury). In some instances, your case manager may require a letter of medical necessity for any requested equipment item.

To order or reimburse equipment that is more than \$3,000, NICA will require a letter of medical necessity OR a prescription. Contact your case manager to determine which provider should issue the letter of medical necessity.

Letters of medical necessity for therapy equipment must include the following information:

- List of diagnoses related to the need for the item
- Rationale for the recommended item

- Evaluation by the rehab specialist

**Prior Authorization Requirements:**

Prior authorization is required for all equipment items over \$3,000. If a parent/guardian chooses to purchase the equipment item prior to authorization, reimbursement cannot be guaranteed.

**Documentation Requirements for Reimbursement:**

- Documentation of medical necessity as discussed above
- 3 quotes (the item being purchased, and two comparative quotes)
  - o Note that in many cases, NICA has purchased similar equipment for other participants and may already have information on costs. When this information is available, comparative quotes would not be needed. Reach out to your case manager for more information.
- Insurance denial for most items – ask your case manager whether one is required for the item you are requesting.
- Invoice from vendor
- Proof of purchase (i.e. receipt, paid invoice, etc.) if NICA is reimbursing the parent

**Additional Information:**

Beginning 1/1/23, for those pieces of equipment that NICA purchases or reimburses for the participant, the cost of repairs, extended warranties, and protective accessories can also be reimbursed. Where an extended warranty is available, it is expected that the extended warranty be purchased. If an item requires repair, and the cost to repair exceeds the cost of replacing the item, NICA will purchase or reimburse the item.

For equipment with a limit for reimbursement, sales tax and the cost of obtaining warranty do not apply towards this limit. If the item costs more than the indicated limit, the item will be reimbursed up to the limit and sales taxes will be reimbursed on a proportional basis.

For hot tubs/spas, the cost of installation is included towards the maximum limit that NICA will reimburse.

**Exclusions or Limitations:**

Please see the *Experimental Programs or Equipment* section for more information.

If needed, NICA will cover one wheelchair and one adaptive stroller or portable wheelchair (manual or electric) for travel to support participants’ mobility needs. Except in cases of physical damage or changes in sizing, duplicate items will not be eligible for reimbursement.

Other items that are not reimbursable include, but are not limited to:

<b>Equipment</b>
Baby Wipe Warmer
Household Furniture (including mirrors for therapy)
Hydro-massage Bed
Mobi Floating Beach Chair

Therasuit Universal Exercise Unit
Wagons
Window AC Unit

<b>Equipment List</b>			
This list includes but is not limited to equipment that has been previously authorized.			
Equipment items must meet NICA's definition of medical necessity for coverage.			
When an item can no longer be used by the participant, please reach out regarding replacement.			
<b><u>Equipment &lt; \$3000</u></b>		<b><u>Equipment &gt;\$3000</u></b>	
<b><u>Feeding</u></b>		<b><u>Breathing</u></b>	
Feeding Pump		Compression Vest	
		Portable O2 Concentrator	
<b><u>Breathing</u></b>			
Air Purifier (limit of \$1000)		<b><u>Mobility</u></b>	
Humidifier		Adaptive Bike***	
Nebulizer		Adaptive Stroller or Portable Wheelchair (Manual or Electric)	
O2 Concentrator		Ceiling Lift	
Portable Suction Machine		Electric Wheelchair / Mobility	
Pulse Ox		Gait Trainer	
Stethoscope		Stander	
Suction Machine			
		<b><u>Therapeutics / Rehabilitative</u></b>	
<b><u>Mobility</u></b>		Stim Designs (Galileo System)	
Firefly Upsee Harness		Hot tub/Pool Heater (Effective 8/24/23, the limit is \$6000)	
Hoyer Lift			
Manual Transportation Wheelchair		<b><u>Communication</u></b>	
Portable Ramp/Thresholds		Tobii Dynavox or Other Communication Device	
Transfer Belt			
Walker		<b><u>Positioning</u></b>	
		Bed (including Sleep Safe and Hospital Beds)	
<b><u>Therapeutics / Rehabilitative*</u></b>			
Therapy Bench/Table			
<b><u>Communication</u></b>			
Electronic Devices** - Computers, Tablets, iPads for Communication Device Purposes			
Seizure Monitoring Device			
<b><u>Positioning</u></b>			
Adaptive Car Seat			
Air Loss Mattress			
Bath Chair			
Floor Sitter (i.e. Ppod Chair)			
Positioning Seat/Chair			
<b><u>Miscellaneous</u></b>			
Changing Table (for those over 50lb)			
Otoscope			
Portable Generator/Battery (For medically necessary equipment)			
Replacement Parts for Medically Necessary Equipment			
*NICA may reimburse equipment used during therapy sessions or for use at home to enhance the therapeutic benefits for participants. We meticulously evaluate safety, efficacy, and best practices before approving any recommended items. Consequently, while NICA considers all therapist recommendations, not every item will be approved.			
**Please reach out to your case manager regarding current communication device limits.			
***If an adaptive bike is not an item that can be utilized by your participant, please contact your case manager to ask about alternative options (such as a Josi stroller).			

## Addendum Reformatting the Supplies Policy

The purpose of this addendum is to restructure the current Supply policy to provide clearer guidance on medical necessity documentation, prior authorization requirements, reimbursement documentation, additional information, and applicable exclusions and limitations. The Supplies list was categorized into the following sub-groups: Ortho, Feeding, Breathing, Hygiene, Medical, and Miscellaneous. In an effort to condense the Supplies List, items were grouped together, such as Trach Supplies and G-Tube Accessories. Puree food, formula, and meal replacement powder were taken off the Supplies List as these items are covered under the Specialized Nutritional Products policy. Adaptive clothing is now limited to adult participants. Household cleaning products were removed (Clorox wipes and sanitizer) and are no longer reimbursable. Other items removed that are not reimbursable include hippotherapy helmet, suction tray, and emesis bags. LifeVacs have been added to the supply list. All changes to the policy are effective 6/1/26.

### **Benefit: Supplies**

#### **Retroactive Benefits:**

NICA will honor reimbursement requests submitted within four years (in accordance with Section 95.11(3)(f), Florida Statutes) of the date the expense was incurred if the request is accompanied by appropriate documentation. If the expense was incurred before the participant's acceptance into the NICA program, this time limit does not apply as long as requests for reimbursement are submitted within four years of acceptance into the program.

#### **Description:**

NICA will purchase or reimburse actual expenses for medically necessary supplies for a participant's care. Because the supplies needed by NICA participants vary widely, a list of supplies that have been covered to date can be found in the Supplies List. If an item for which you are seeking reimbursement is not listed, please contact your case manager to check if the item may be reimbursable.

#### **Medical Necessity Documentation:**

To order or reimburse supplies that are less than a one-time expense of \$3,000 or a recurring expense under \$1,000 monthly, NICA will require a written statement from the parent or legal guardian of the participant as to why the supply is medically necessary (if not clearly related to the injury). If the statement is not clear, your case manager may require a letter of medical necessity for any requested supplies.

To order or reimburse for supplies that are more than a \$3,000 one-time expense or more than \$1,000 monthly recurring expense, NICA will require a letter of medical necessity OR a prescription.

Letters of medical necessity for therapy supplies must include the following information:

- List of diagnoses related to the need for the item
- Rationale for the recommended item
- Evaluation by the rehab specialist

#### **Prior Authorization Requirements:**

Prior authorization is required only for supply items of more than a \$3,000 one-time expense or an over 17 \$1,000 monthly recurring expense. If a parent/guardian chooses to purchase the supply item prior to authorization, reimbursement cannot be guaranteed.

**Documentation Requirements for Reimbursement:**

- Documentation of medical necessity discussed above
- Invoice from vendor
- Proof of purchase (i.e. receipt, paid invoice, etc.) if NICA is reimbursing the parent
- Insurance denial for some items (see the Supplies List for further details)

**Additional Information:**

Effective 6/1/2024, supplies purchased through a same-day-delivery service (i.e., Door Dash, UberEATS, etc.) may be reimbursable with the appropriate documentation submitted. However, fees associated with the use of these delivery services (such as delivery fees, service fees, and tips) are non-reimbursable. Shipping protection add-on fees associated with online purchases are also non-reimbursable.

**Exclusions or Limitations:**

Please see the *Experimental Programs or Equipment* section for more information.

Items that are non-reimbursable include, but are not limited to:

Supplies
Adaptive Clothing (for participants under 18)
Audio Speakers
Bath Mat
Bottled Water for Non-Medically Necessary Purposes
Cushioned Rug Pad
Disaster preparedness supplies (not related to medically necessary equipment)
Fluoride-free toothpaste
Gas/Gas cans
Homeopathic Teething Relief Product
Heating pad
Household supplies/cleaning products
ID tags for equipment and supplies
Inflatable Travel Tub
Laundry supplies
Portable Shower
Portable Sound Machine
Propane Refills for Generator
Sleepsack
Thermometer
Travel Highchair

<b>Supplies List</b>	
This list includes but is not limited to supplies that have been previously authorized.	
Supply items must meet NICA's definition of medical necessity for coverage.	
When an item can no longer be used by the participant or has been used up, please reach out regarding replacement.	
<b><u>Ortho</u></b>	<b><u>Hygiene</u></b>
AFOs*	Baby Powder (Talc-free)
Handgrips	Diaper Odor Bags (after age 3)
Positioning & Mobility Supplies*	Diaper Rash Cream (after age 3)
Shoes for AFOs (limit of 4 pairs per year)	Diapers/Swim Diapers & Wipes (after age 3)
Socks for AFOs	Disposable/Non-disposable Washcloths or Towels
	Mouth swabs/Toothettes
<b><u>Feeding</u></b>	Oral Suction Toothbrushes
Bibs (after 18 months)	Pull-ups (after age 3)
Feeding Bags - Pressure Relief System*	Underpads (with or without tape)
Feeding Pump Kit*	Urine Collection System & Supplies*
G-tube accessories*	
Pedialyte	<b><u>Medical</u></b>
Specialized Feeding Utensils & Drinking Cups/Straws (after age 3)	Backpack (for on-the-go emergency supplies)
Supplements	Gauze*
	Gloves/Masks

*This item may require an insurance denial. Please reach out to your case manager regarding documentation requirements.	
**Adaptive clothing is designed with modification for those who are unable to wear traditional clothing and apparel for a variety of reasons. This can include items such as clothing with open-back tops, incontinence clothing, etc. which allow for utilization of medically necessary supplies and equipment.	
***NICA may reimburse supplies used during therapy sessions or for use at home to enhance the therapeutic benefits for participants. We meticulously evaluate safety, efficacy, and best practices before approving any recommended items. Consequently, while NICA considers all therapist recommendations, not every item will be approved.
